

PARENT/COMMUNITY ORGANIZATIONS

School-related organizations (parent-booster-community) create a level of involvement that enhances the goals of the school system. The willingness of individuals to develop and sustain this interest and commitment can enrich curricula or co-curricular programs. These endeavors often provide assistance, funds, or services. They demonstrate essential indicators of common interest and collaboration.

Each school principal or designee shall maintain a liaison role with these organizations. This role will ensure and maintain harmony with the goals of the organization and the policies and goals of the school system.

Adopted 3/12/96
